The story of the Illinois & Michigan Canal goes back to the 1670’s. Father Marquette and Louis Jolliet explored the lands of the Midwest, being led by the resident Native Americans. They are shown what’s known as the Chicago Portage, a gap between the Great Lakes and the Mississippi River where boats had to be carried (“portage”). The French explorers realized the importance of this stretch of land, but it was just over 140 years later when Stephen H. Long did the first quantitative survey of the portage.
It’s important to take in the entire picture when you’re embracing the unique charm of the area. You are standing in history everywhere you look, and “the little waterway” known as the Illinois & Michigan Canal helped Chicago overtake St. Louis to be the main center of business in the area.
Along the I&M Canal lies the village of Lemont, an area rooted in history. **St. James at Sag Bridge** is the oldest working Roman Catholic church in Northern Illinois. Stop by and learn more about the “lost city of Sag Bridge.” The **Lemont Area Historical Society and Museum** is housed in the “Old Stone Church,” which served as a Civil War recruiting station.

Spend some time in neighboring Lockport, the administrative headquarters of the Canal. **Lincoln Landing** teaches visitors about how the 16th President played a role in the creation of the Canal. Take in the I&M Canal exhibit on the first floor of **The Gaylord Building**. A short walk leads you to the **Will County Historical Society**, where you can learn more about pre-1850’s Will County and the “Weird of Will County.”

At the **Joliet Area Historical Museum**, you can see a replica of the I&M Canal walls and learn more about life during the building of the canal.

As you travel down the Canal, you will come across the “Rockwellian” City of Morris. Step onto a replica of a canal boat, which were commonly seen traversing the Canal during its heyday, at **Canal Port Park**. Learn about the area at the **Grundy County Historical Society**, which features a vintage train caboose.

From Morris, you’re not too far from the **Carbon Hill School Museum**, which is an original 1893 schoolhouse displaying original artifacts from turn-of-the-century life of families, businesses, and the coal mines.

LaSalle houses the **Hegeler Carus Mansion**, a 57-room mansion completed in 1876. This mansion has been virtually unaltered, making for a great tour. Truly experience history on the I&M Canal Boat Tour, your chance to ride on a replica of a canal boat pulled by mule power.

Three museums await you in Mendota, including the **Hume-Carnegie Museum**, the **Union Railroad Depot Museum** and the **Breaking the Prairie Museum**. Agriculture and railroads are an important part of the City of Mendota’s history. You will also learn more about Wild Bill Hickock, who was born in nearby Troy Grove.

The **Westclox Museum** presents a history of the Western Clock Company (better known as “Westclox”). The company responsible for “Waking up America” operated in the area for almost 100 years, having a huge presence in the lives of the thousands of employees and their families.
REMINISCENT OF THE CANAL’S PROSPEROUS TIMES

Fast forward to present day, and you can still see buildings and architecture reminiscent of the busiest times of the Canal. Joliet-Lemont limestone, dug from local quarries, can be seen as the literal building blocks of the area. This is the same limestone seen in Chicago’s Water Tower, Michigan’s State Capitol, and Chicago’s Rosehill Cemetery.

As time moved on in the communities, so did buildings. The cities and villages of the area purposefully kept the look and motif in order to embrace and showcase the history and heritage.

PLANNING AND CONSTRUCTION

Stephen H. Long’s survey in 1816 allowed for a specific proposal to be made for a canal. In 1824, Canal Commissioner Samuel D. Lockwood was given authorization to hire contractors for construction to start on the canal. But it wasn’t until 12 years later when the work began on the Illinois & Michigan (I&M) Canal.

As the Canal was being built, existing towns began to flourish with an influx of immigrant workers. New towns with churches and courthouses appeared, as well as bars and brothels. Death surrounded the construction along the canal due to extreme workloads and tensions boiling over during worker strikes.

As the Canal neared completion, businesses made their way to the towns and utilized the ease of shipping and receiving which came along with the Canal.
**DOWNTOWNS THE WAY THEY SHOULDBE**

As you traverse through the Canal towns, you will notice several historic buildings and think about the years gone by. As you step into each building, you will find small businesses bringing a modern flair. Unique stores and modern dining are bringing people back to Canal downtowns to enjoy a renaissance and freedom against modern business conglomerates.

As you meet these entrepreneurs, working along site their staffs, you will feel that authentic charm of the area. As you embrace their high-quality service and amazing meals, you will find yourself ready to come back to these towns again and again.

**BOUTIQUE STORES**

Each of the towns along the Illinois & Michigan Canal have amazing stores where you can find your treasure. This includes ItIsAmazing, Joliet’s home for upscale women and children’s clothing at thrift prices, and Betty’s, selling new and vintage clothes in downtown Morris. In addition to clothing stores, you will find antiques, vintage furniture, books, and toys. Find more by visiting our “Antiques and Boutiques” section on page 78.
The Canal Corridor Association has recently launched a bike sharing program, allowing you to bike between the towns of the Illinois & Michigan Canal. Take a leisurely pedal through nature and experience each town’s unique adventure. Manage your trip and pay the minimal hourly fee via an app on your smart phone. Visit iandmcanal.org/bike for more information.

For the more advanced bicyclist, there are many bike trails that await. This includes a 15-mile bike trail from LaSalle to Ottawa, a 15-mile trail from Channahon to Morris, an 11-mile ride from Lockport to Romeoville, an 11-mile ride from Lockport to Joliet, and a 22-mile trail from Joliet to Custer Park.
Independent Dining

The towns along the I&M Canal offer a variety of exceptional dining options with hometown service that you can’t find everywhere. If you’re looking for upscale bar and comfort foods, check out Lockport’s Public Landing and Embers Tap House. Lemont’s Next Mex will satisfy your craving for modern Mexican. In Ottawa, don’t miss Woody’s Steak House, serving up tradition and “food worth traveling for.”

In fact, we have an entire section dedicated to great dining options on page 60.
SEE YOU IN J-TOWN
CITY OF EXCITEMENT
VisitJoliet.com
Spark your sense of wander and wonder on the nation's Mother Road -- the legendary Route 66 -- and visit eclectic Joliet, less than an hour south of Chicago. Historic and forward-thinking, Joliet brims with unique charm, culture, cuisine and an especially colorful history as portrayed abundantly in stunning public art -- handsome murals and sculptures depicting significant historical events and personalities. Seek and you shall find artistic installations in every neighborhood.

Residents proudly proclaim that Joliet is the “biggest little city” . . . an exciting array of fascinating diversion in a friendly small-town ambiance. Explore Joliet and you'll find a city that honors its roots as it drives purposely to a greater future.

Historically, Joliet shares an important link with Route 66. The city became an official part of Route 66 in 1926. The spirit of Route 66 remains, and today visitors can still experience a sense of Mother Road culture here.

Visit the Joliet Area Historical Museum and its Route 66 Welcome Center to return to the heyday of the Mother Road. The museum, housed in the former Ottawa Street Episcopal Methodist Church built in 1909 in the grand Neoclassic Revival style, stands at the Crossroads of America - one block west of where the original alignment of
Route 66 and the Lincoln Highway intersect. Take a seat on a classic car-inspired couch at the museum’s retro drive-in movie theater and see images of the quirky roadside attractions and eateries that made Route 66 a destination itself.

The museum showcases Joliet’s fascinating history in a brief, charming preview video. Then, explore interactive exhibits that include a walk-through replica of the I&M Canal, turn-of-the-century streetscape, and a depiction of an Old Joliet Prison guard tower. A museum highlight is the Lunar Lander Simulator that challenges visitors to blast off to the moon and attempt a spacecraft landing on the lunar surface. The simulator is part of the two-story, state-of-the-art Apollo/Houbolt exhibit that celebrates the 1969 moon landing and Joliet native Dr. John C. Houbolt, who was a vocal proponent of the history-making Apollo 11 mission. Before you depart the museum, pop into the lobby Museum Shop for a unique selection of Joliet and Route 66 memorabilia, books and toys.

There are a few replica vintage gas pumps in the city (near Old Joliet Prison and Gas City) as a colorful salute to Joliet’s Route 66 connection. A good place for fun selfies is Route 66 Park, where you’ll want to snap a photo in front of the huge “Joliet Kicks on 66” highway shield. While here, grab a cone from the Rich & Creamy ice cream stand, the official starting point of Route 66 in Joliet. Take note of The Blues Brothers on the rooftop. Take a walk through the park and browse the kiosks that illustrate local Route 66 attractions and feature maps to help you find them.

Newly dubbed “The Alcatraz of the Midwest,” visit the Old Joliet Prison to walk the old grounds of the incarcerated, read interpretive displays that detail the prison’s fusty history and its inmates, as well as appreciate new-found fame with starring roles in The Blues Brothers movie and the hit TV shows Prison Break and Empire. Opened in 1858 and closed in 2002, the 16 intriguing acres of the Old Joliet Prison are now available for seasonal guided tours. Visitors will be able to participate in
programs, photo ops and guided tours on the famous (or infamous) prison grounds and buildings housed inside the historic Joliet Limestone walls, the very same stone as Chicago’s renowned Water Tower. Contact the Joliet Area Historical Museum for details and admission tickets.

For years it has stood alone as an eerie reminder of the past, beckoning those who dare to explore. Many have claimed to have seen visions of the spirits who have never left, or heard the screams of the trapped and tortured souls within. Are the walls of this abandoned prison actually keeping us out, or keeping them in? This year, the gates will finally open. Come see for yourself, as Thirteenth Floor presents The Old Joliet Haunted Prison, featuring multiple attractions, food, drinks, games, and more!

Another place of interest is the Joliet Iron Works Historic Site. Once home to Joliet Iron and Steel Works, which originally opened in 1869, the site has preserved remnants of the once massive steel mill. Take a self-guided tour on a 1.5-mile walkway and see exhibits that illustrate the history of the mill and the men who worked there. You will pass foundations of old blast furnaces and crumbling structures from the dismantled factory. The site also links with a bike path to the I&M Canal State Trail.

Venture on to the “Jewel of Joliet,” the Rialto Square Theatre. This stunning vaudeville palace was built in 1926. Big name performers that have graced the stage include Bob Hope, Red Skeleton and The Marx Brothers, who are honored with a street-side silhouette sculpture nearby. The Rialto was designed in an over-the-top grand manner, incorporating ornate European architectural styles, including a replica of the Hall of Mirrors in Versailles, sweeping staircases, and a stunning 22-foot tall crystal chandelier that is known as “The Duchess.” The Rialto also features the last-of-its-kind Barton Grande theater pipe organ, which is still played today. The Rialto continues to present live theater and popular music throughout the year. Make sure to check their schedule for upcoming performances and behind-the-scenes tours fill with backstage tales of this awe-inspiring theater.

Two blocks from the Rialto Square Theatre is the architecturally handsome 1912 small-scale replica of Chicago’s famous Union Station. The station’s glorious former waiting room has been transformed into The Grand Ballroom, a timeless and elegant setting for weddings and receptions. On the lower level, MyGrain Brewing Company is committed to bringing flavorful and bold-yet-smooth styled craft beers paired to a lunch and dinner menu to appeal to anyone’s tastes. Adjacent to Old Union Station and newly-opened in 2018 is Joliet Gateway Center, a state-of-the-art transportation hub, offering both the convenience of long-distance Amtrak rail as well as regional Metra commuter service to Chicago and its suburbs.

As you walk through downtown Joliet and drive through the city, you’ll notice colorful tile mosaics, murals and bronze sculptures that are part of the arts program created by the Friends...
of Community Public Art (FCPA). These artful installations capture Joliet’s history, culture and heroic personalities through site-specific, audience responsive art work.

Take a break at the scenic Billie Limacher Bicentennial Park & Theatre, nestled between limestone bluffs and the waters of the 133-mile Des Plaines River. There’s a lot to do at this 10-acre park, which is home to two community theater companies that stage plays year-round, the free summertime “Concerts on the Hill” Thursday evening series, and annual events such as the holiday “Festival of the Gnomes.” Stroll around the park and you’ll spy murals and large boulders with plaques noting former historic sites that stood on Bluff Street, Joliet’s first street that once ran through the park.

Extend your nature experience at the Bird Haven Greenhouse and Conservatory, located just east of downtown Joliet. You’ll appreciate the beautiful blooming flora on display located within a 660-acre wooded site at Pilcher Park. Built in the early 1900’s, this lovely Italian Renaissance-style building is the perfect background for seasonal flower shows. Amble about the grounds for artistically landscaped seasonal beauty.

Finally, rev your engines at the Autobahn Country Club founded by racing star and Indy 500 champ Bobby Rahal. The 350-acre site (located near Chicagoland Speedway) is home to challenging tracks that, when combined, create one of the longest racing courses in the country. Although Autobahn is a members-only motorsports club, it does offer driving programs and events that are open to the public.

THE FIRST
HUNDRED MILES

By Dan Mulka

“It winds from Chicago to LA,
More than two thousand miles all the way”
Nat King Cole – Route 66 (Get Your Kicks On)
Many remember their stories of driving along Route 66, an adventure that took them part or all the way from Chicago to Los Angeles. For example, my parents took a trip on Route 66 that lead them from their home in Northern Michigan to Yuma, Arizona. My father was stationed at the US Army base there and was reporting for assignment. I grew up hearing stories about the different stops, the different diners, and the different adventures they had on the way.

Stories and memories of adventures along the road were created by both the drivers and the people that reside in the small towns, mom & pop shops, roadside attractions and entrepreneurs located along the stretch. When Route 66 was designated in 1926, the towns along the path saw a true economic boom. That’s when the historic shops, the “niche” roadside stops, and the Americana sprang up – and that nostalgia is what one can still experience when they hit the “Mother Road.”

There is no better place to start than along the first hundred miles of Route 66. In fact, Paul McCartney made a few stops in this stretch during his trek down the road. Just imagine the faces of the employees of the Joliet Area Historical Museum when the former Beatle made an impromptu visit.

The collection of roads that became known as Route 66 started in Chicago. Illinois was the first of the eight states to have its path paved completely.
If you are looking for world famous chicken, visit Willowbrook’s Dell Rhea’s Chicken Basket. The restaurant was featured on “Diners, Drive-Ins and Dives.” This is one of the many amazing fried chicken locations in the first hundred miles. Romeoville’s The Original White Fence Farm and Pontiac’s Bernardi’s II Restaurant are the other two we recommend.

For a quick meal, stop in at Chevere Latin Cafe, Jitters or the Joliet Route 66 Diner. You will get a lot of amazing food at a great price.

One of the most beautiful stops on the Route is in Joliet. The “Jewel of Joliet,” the Rialto Square Theatre, opened in 1926, the same year Route 66 was certified, and continues to hold concerts, musicals, theatrical showings and more each year.

Further down the Route, you’ll come across Chicagoland Speedway, Route 66 Raceway, and Dirt Oval 66. These attractions host several motor sports during the year, including Chicago’s yearly NASCAR event and the Route 66 NHRA Nationals.

The Gemini Giant, a 30-foot tall “Muffler Man,” stands guard at the newly re-opened The Launching Pad Drive-In. Stop in for a bite to eat here, or just a little bit down the road at Nelly’s On Route 66 or the Polka-Dot Drive-In.

The Old Joliet Prison is discussed in more detail in our Joliet section, but did you know that there is a second prison on the first 100 miles of Route 66? The Two-Cell Jail in Gardner is a perfect place for a selfie and to “do a little time.” Stop into Gardner’s Streetcar Diner to learn a bit more about the type of mobile establishments that used to frequently be seen along the streets.
Depending on when you last ate, it might be time to stop for a meal. And, Dwight’s Old Route 66 Family Restaurant is a great place to do so. The décor on both the inside and outside walls make you feel like you are in the heyday of Route 66. Don’t forget to stop at the nearby Ambler-Becker Gas Station and snap a few photos as well. The location actually serves as a visitor center, and during its open hours, you can learn more about things to do along Route 66.

A must for any trip down Route 66, you will want to make sure to take a photo in front of the World’s Largest Outdoor Painted Route 66 Shield. It’s located on the back outside wall of the IL Route 66 Association’s Hall of Fame in Pontiac, along with Bob Waldmire’s Road Yacht, the wishing well from the Wishing Well Hotel, and keep an eye out for more Murals on Main Street. In fact, there are 26 murals throughout the city of Pontiac – painted by the internationally-renown Walldogs. In Pontiac, other museums include the Pontiac Oakland Automobile Museum and the Museum of the Guilding Arts.

Take in a show at the Eagle Performing Arts Center or check out the town’s Swinging Bridges. And if you’re hungry, we recommend Edinger’s Filling Station.

Bureau County has been on travelers’ maps dating back to Native American migrations. From 1776, fur traders and early settlers stopped into brothers Michel and Pierre Bureau’s trading post at the confluence of Big Bureau Creek and the Illinois River. The village named after them, Bureau, was the halfway point on the railroad journey between Rock Island and Chicago. Today’s travelers exploring Bureau County’s 23 communities discover rich American history, outdoor activities and contemporary cultural experiences.

Princeton is the Bureau County government seat, site of one of Illinois’ oldest county fairs started in 1856 and central point for touring the area. Park benches, colorful flower displays and independent shops housed in 1800s storefronts line brick-paved Main Street. Sugary scents waft from Flour House Bakery & Coffee, witty treasures draw boutique shoppers into Beetz Me! and on-site ceramics studio-gallery Annies Little Pots features Central Illinois artists’ works. Little Blue Dress carries eclectic fashions and handcrafted, affordable adornments. Meadows Home Decor & Gifts showcases tasteful home design pieces and festive seasonal decor in an 1895 Queen Anne style, former dry goods store.

Seasonal Princeton events include the Z-Tour cross-country bike ride, summer street concert series and the Shadows of Blue and Gray Civil War reenactment. Festival 56 stages a variety of shows from mid-June into December including Shakespeare in the Park and productions at the Grace Performing Arts Center. The exhibits at the Bureau County Historical Museum illustrate pioneer, agricultural, political, canal and mining industry history. A National Historic Landmark and museum, the homestead of abolitionist-minister-congressman Owen Lovejoy was one of several Bureau County stops on the Underground Railroad.

Noteworthy road-tripping routes through Bureau County include the Illinois River Road National Scenic Byway and the Galena Trail and Coach Road, a historic commuter trail used by Native Americans, pioneers and coal miners. Now, its travelers traverse the 1863 Red Covered Bridge outside Princeton and pass through abundant farmlands surrounding communities with interesting historical society museums. The annual More on 34 yard-garage sale over Father’s Day weekend stretches through communities along U.S. Route 34. The Barn Quilts of Bureau County driving route passes 90 patterned barn quilts painted on agricultural buildings. Along the way visitors learn of the Cherry Mine Disaster of 1909 that led to passage of the nation’s first federal standards for mines safety and the Illinois Workmen’s Compensation Act.

Bureau County attracts active outdoor travelers. Spring Valley ranks as a top Illinois destination for boating, water sports, bird watching, geocaching and championship fishing. Spring Valley on the Illinois River is the first stop on Cabela’s Masters Walleye Tournament, the premier walleye fishing competition in the country. Constructed from 1892 to 1907 and connecting the Illinois and Mississippi Rivers, the 104.5-mile Hennepin Canal starts in Bureau and travels west through Wyanet where visitors view Lock 21’s original lock tender houses and stop into Sheffield’s Hennepin Canal Visitors Center. Canal activities include canoeing, fishing, bicycling, hiking, and horseback riding the shoreline trails comprising part of the Grand Illinois Trail and coast-to-coast American Discovery Trail.

Like many settlements in the Illinois & Michigan Canal Heritage Corridor, the 15 communities in Livingston County sprouted up along waterways and Native American trails lacing the prairielands. Later, renowned U.S. Route 66 was built, running through Livingston County where road-trippers view landmark architecture, experience Illinois railroad history and learn about young Abraham Lincoln’s years as a lawyer.

U.S. Route 66 passes through Pontiac, the county’s government seat. Pontiac visitors can walk into the recently restored, Second Empire Style courthouse designed by Chicago architect John C. Cochrane. Built in 1875, the clock tower adorned, mansard roofed building listed on the National Register of Historic Places harbors a county history exhibit and is one of nine sites on the Looking for Lincoln Story Trail. Visitors can take an informative, self-guided walking or driving tour through Pontiac’s historic streets making stops at locations where Lincoln tried cases, made speeches and stayed overnight during his tenure as an attorney in Illinois Eighth Judicial Circuit.

The Vermilion Players dinner theater runs seasonally at Pontiac’s Eagle Performing Arts Center with summer shows held in the riverside Chautauqua Park. Visitors enjoy traversing the picturesque Vermilion River on Pontiac’s three, swinging pedestrian bridges. Two were built in the 1900s for workers to commute to eight shoe manufacturers operating from 1881 to 1941. Other historic sites include restored 19th century homes open for tours and the Pontiac Museum Complex housing the Illinois Route 66 Hall of Fame and Museum and five specialty museums including the Livingston County War Museum showcasing an expansive uniform exhibit and the Civil War-era music museum. Nearby is the Pontiac-Oakland Automobile Museum and Museum of the Gilding Arts. 26 outdoor murals within a four block radius, painted by The Walldogs, illustrate Pontiac’s cultural, commercial, and political history.

In Dwight, six buildings listed on the National Register of Historic Places -- including a bank designed by Prairie Style architect Frank Lloyd Wright – inspire travelers to pull off the Mother Road. The First National Bank of Dwight built in 1904 is one of Wright’s few public buildings still being used for the purpose it was built. Visitors recognize his signature architectural features, such as wood banding, Roman brick fireplace, earth-toned colors, limestone used on both the exterior and interior and an original bank desk Wright designed. The Dwight Historical Society Museum inside the 1891 C & A Railroad Depot designed by Henry Ives Cobb is also on the National Register, as are the public library inside Oughton Estate’s Carriage House, the Country Mansion, Pioneer Gothic Church, 1896 windmill and visitors center occupying restored 1933 Ambler’s Texaco Gas Station on Old Route 66.

Fairbury celebrates Livingston County’s agricultural heritage and flavors. Echoes Museum preserves the area’s farming history while visitors taste it at Kilgus Farmstead Country Store, which carries local food products and soft-serve ice cream. In summer, stock cars zoom around Fairbury American Legion Speedway. Don’t miss the Indian Creek Market which is held downtown. For a farm-to-fork tour and dining experience, visit Slagel Family Farm’s monthly dinners prepared by Chicago guest chefs. Slagel products are sold in nearby Forrest known for its historic, turreted train depot displaying railroad exhibits.

The Starved Rock State Park area is well known to those in Illinois for its natural beauty. About an hour and a half southwest of Chicago, Starved Rock State Park sees over 2.5 million visitors annually.
The park itself has 13 miles of trails to explore, including amazing views of the Illinois River. As you walk through the park, your breath will be taken away when you catch a glimpse of the amazing canyons. Come when the snow melts or after a heavy rainstorm, and you might witness a waterfall in 14 of the 18 canyons. During the winter, the water freezes and turns into ice falls.

Starved Rock State Park is truly a marvel during each of the four seasons. Not only in the landscape, but in the air above you. During the winter months, especially when the river is frozen over except by the Illinois Riverway Dam, you will see majestic bald eagles soaring overhead. Later in the year, the American White Pelican can be spotted in the air and floating in the river below. Starved Rock is a bird watcher’s and photographer’s paradise.
Starved Rock State Park is the most known State Park in the area, but nearby Matthiessen State Park has equally impressive views. Water erosion in its main canyon has caused a 45-foot drop, which creates a beautiful waterfall when the conditions are right. As you trek through the mile long canyon, take note of the beautiful colors on the outside walls. Just like in Starved Rock, make sure you have your camera to capture nature year round.

Across the Illinois River from both parks is Buffalo Rock State Park. This park is located on a bluff along the Illinois River. The park is home to two bison friends, Cocoa and Pebbles, and the park is the Effigy Tumuli, an art exhibit recreating earthen effigies with mounds including a 2,070-foot long snake, a 350-foot long frog, a 220-foot long catfish, a 685-foot long water strider and a 650-foot long turtle.
Utica’s August Hill Winery and Illinois Sparkling Co. is the perfect place to sample wine. Sit back in their modern, relaxing tasting room and enjoy wines and sparkling wines made from their local vineyard. Find your favorite and pick up a bottle, or sign up for their wine club and have new favorites delivered to your home throughout the year.

In the nearby town of Peru, Star Union Spirits is distilling unique small-batch craft spirits from local fruits and grains. The distillery is located in the Westclox building, a former clock factory building that has been repurposed and is now the home of several great small businesses to check out.

And in Ottawa, Tangled Roots Brewing Company and its restaurant, The Lone Buffalo, are a must-visit. Don’t miss Forty One Eighty Eight, their “farm-to-foam” beer that features hops from their nearby farm, which goes great with a Brewmaster Burger.

Don’t forget to stop into CatsEye Wine Bar as well. They carry unique wines, as well as craft beer, in a truly unique setting that will allow you to relax and focus on subtle flavors of your drink.
When you “flock to the rock,” there is so much to do to complement your time in the parks. And, if you are a fan of shopping, you will love the nearby towns and their unique shops.

There are a number of stores throughout the Starved Rock State Park area that are waiting for you to discover the treasures inside. Fashionistas will love Ottawa’s Weeta’s Boutique, a women’s boutique clothing store. Also in town, you will find A Mess of Things. This store has vintage, shabby chic clothing, along with repurposed and recycled home décor and more. A few steps down, you’ll come across Rock Paper Scissors, a toy store that will inspire your child’s imagination, and Prairie Fox Books, an independent bookstore that has your next book to escape into.

What ever your definition of adventure, it awaits you in the Starved Rock State Park area. It’s the home of Zip Chicago and Skydive Chicago, which we outline more in our “Adventure Outside Chicago” section on page 69.

The area is also home to the Starved Rock Country Marathon and Half-Marathon, which takes you through several towns in the area as well as Starved Rock State Park. This is the marquee running event of the area, typically scheduled for early May.
If you're looking for a mouth-watering burger, stop in at Lodi Tap House in the village of Utica. Their burgers are a “must have” and are well-known throughout the area, but don't leave without ordering the cheese curds. And, if you're looking for a place to watch the game, look no further than Halftime Pizzeria and Restaurant in Ottawa.

A truly unique stop is Utica's Cajun Connection. “Cajun Ron” is a direct import from the Bayou, and his recipes are truly authentic. Gator, jambalaya, shrimp etoufee and more are on the menu. Don't miss LaSalle's Uptown Grill. The restaurant mixes modern flair with a casual setting, and has a menu that any foodie will love.

For more places to check out, please visit our We've Got Your Dish section on page 60.
Whether you stay at Starved Rock Lodge, Kishauwau’s Starved Rock Area Cabins, Grand Bear Resort at Starved Rock, or any of the brand hotels in the area, you’ll be able to relax in the comfort of a warm bed and hot shower after your excursions for the day. And, if you’re looking to stay a little more rustic, there are several campgrounds in the area as well.

The LaSalle County Historical Society and Museum takes you into the past of the Starved Rock area. Learn more about Wild Bill Hickok, see the carriage Lincoln rode in to attend his first debate with Douglas and more.

The city of Ottawa is the home and the final resting place for one of the founders of the Boy Scouts of America, W.D. Boyce. Learn more about the history of the boy scouts, girl scouts, campfire and the Ottawa area at the Ottawa Historical and Scouting Museum.

Starved Rock takes on a new look during the winter. Watch for eagles in the skies, especially if the river is frozen near the Starved Rock Lock and Dam. Go hiking or cross-country skiing, or watch for people climbing ice falls if the weather conditions are correct.

Look for seasonal specials including trolley progressive dinners, winter wine walks, educational sessions about eagles and owls, and so much more.
The Ottawa Art League and Open Space Gallery showcase one-of-a-kind pieces of art throughout the city of Ottawa. In addition, look for some amazing murals on city buildings as well. Find the piece of art that inspired the name of Tangled Roots Brewing Company’s “The Lone Buffalo.” Look for the art that recreates a bank’s financial security during times of the Great Depression. Look for the newest artwork that “revolves.” It’s all part of the city’s A Brush with History program.

A trip to the Starved Rock area is a trip that can be enjoyed by all ages. Witness the wonder in your young one’s eyes as they see the gigantic canyons or catch the sight of an eagle soaring through the blue skies. It’s a great way to disconnect from technology and connect with the world around you.

Have you ever traveled to a destination so far from home, yet so familiar? Arrived in a place surrounded by strangers, yet every one is a friendly face?

Come dip your toes where the Fox meets the Illinois, and lose yourself in a cave of salt. Take the paths of Presidents or blaze the trail with buffalo. Savor worldly cuisine or sample the local roots. Whether you’re traveling cross country to visit family or just a few miles to see an old friend, you will always arrive in the middle of everywhere.

800.926.CANAL (2262)
The 1848 opening of the canal heralded a new era in trade and travel for the entire nation. This remarkable water passageway transformed Chicago from a small frontier town to the fastest growing city on earth. The canal thrust the Midwest economy forward into the future.

In 1984 the I&M Canal continued its progress when it became America’s first national heritage area. Our “new kind of national park” was a collaboration of preservation, conservation, recreation, and economic development.

Today the I&M Canal National Heritage Area is an 862 square mile region encompassing five counties and 60 communities. The Canal Corridor Association, is the 501(c)(3) nonprofit designated by the US Congress, responsible for ensuring that the IMCNHA realizes its potential by maintaining, enhancing and promoting the historic, cultural, and natural resources of this significant heritage area.

Enjoy all the many ways to experience the simple pleasures and natural treasures of the I&M Canal National Heritage Area!
